Raise colors - T330
Lower colors - T331
East facilities - T309
West facilities - T306
East litter pickup - T325
West litter pickup - T316

ARENA SHOW MOBILIZATION

The President of the United States will be coming to tonight's opening show! This is a unique opportunity and something you will remember for a lifetime. Because the President is coming, we will all need to go through screening (including metal detectors) before we go into the arena.

We will assemble on the gravel road that cuts through the sub-camp. To insure that we are in the arena by 6:50 we will be leaving for the arena sharply at 4:45 PM and will not wait for latecomers. If you have not yet identified individuals who will want to use the bus for people with special needs, please do so at the Administration Tent as soon as possible.

When you leave the arena, go to the RED balloon. Make sure Scouts travel with a buddy and know to ask the staff along the trail if they need help.

Bring:

- Wear full uniform
- Rain gear
- Water in clear water bottle: Bottle needs to be empty when entering arena. Refill water inside.
- Hat with no metal objects
- Cameras and flashlights: Collect into one backpack per troop to run through x-ray machine

Don't Bring:

- Laser pointers
- Noisemakers
- Lighters
- Knives or any other metal devices
- Chairs or stools (blankets or chairs without legs are OK)
- Cell Phones
- Sunscreen (apply before leaving camp)

SCOUTS ARRIVE!

Scouts and Scouters from across Area 3 filled our Subcamp yesterday as part of the 31,788 Scouts and 3,532 Scouters attending this year's Jamboree. The steady stream of arriving contingents started with the first bus at 6:30 AM and continued until close to 3:30 PM.

Here are some highlights from the long unpacking process!

CHAPLAIN'S CORNER

“Do you ‘heed what you hear’ (Mt. 13:43)? If you only hear, it is easy to say ‘Yeah, but...’ This implies that what was heard is easily rejected. To heed, you must accept what is heard and make it part of your daily routine.”

– Fr. Greg Brennan

TODAY'S HISTORICAL EVENTS

- 1866 – Atlantic telegraph cable successfully laid (1,686 miles long)
- 1940 – Bugs Bunny made his debut in the cartoon “A Wild Hare”
- 1996 – Pipe bomb exploded at the Olympic games in Atlanta, killing one and injuring many
- Happy Birthday to Ryan Sprague of Troop 327

NEWS HEADLINES

- Shuttle Discovery launches as planned, beginning a 12-day journey in space
- 6-Party talks with North Korea on nuclear weapons began yesterday
- Cadillac has begun making bicycles, priced between \$500 and \$1,900

DID YOU KNOW...

Who is Steven Squyres?

Dr. Steven W. Squyres, 47, is married and has two children. He splits his time between NASA in California and teaching astronomy at Cornell University in Ithaca, N.Y.

Dr. Squyres’s research focuses on the large solid bodies of the solar system, particularly the tectonics of Venus, the history of water on Mars, and icy satellites of the outer planets.

From 1978 to 1981, Dr. Squyres was an associate of the Voyager imaging science team. He was a radar investigator on the Magellan mission to Venus and a co-investigator on the Russian Mars ‘96 mission.

Dr. Squyres is currently the scientific Principal Investigator for the Mars Exploration Rover Project. He is also a member of the imaging team for the Cassini mission to Saturn.

STUFF YOU GOTTA KNOW

Medical

- To stay out of the medical center:
1. Wash your hands frequently.
 2. Eat fresh fruit and vegetables daily.
 3. Get lots of rest.
 4. Wear SPF 30 sun screen, preferably a “sports” type so it stays on longer. Reapply if you wipe it off and after lunch.
 5. Wear sun glasses.

Safety stand-down

All program areas will be closed between 8:00 and 9:00 AM today. More information will be forthcoming.

Buckskin Branding

You can experience a craft that you great grandfather practiced by visiting the Buckskin Games area of Action Center D. You may brand a 1½ by 2 or 3 inch Jamboree 2005 logo on either a piece of leather or a block of wood that you bring with you. Clothing items are not allowed to be branded.

We’ll see you at the Buckskin Games!

Presidential Trap Range

For the second straight Jamboree, Action Center D is the proud home of the Presidential Trap Shooting Range. We invite all Scouts to come down and shoot at the Presidential Range. It’s open from 9:00 AM to 5:00 PM. Come on down—you never know who you’ll see there!
