

**2005 National Jamboree  
Subcamp 3 Commissioner Staff  
Northeast Region, BSA**

June 24, 2005

To: Scoutmasters  
Subcamp #3

From: Vic Lonsberry  
Camp Commissioner  
Subcamp #3  
Northeast Region

As I write this, there are 30 days before your arrival at Fort A. P. Hill for the 2005 National Jamboree. This will be the last newsletter before the Jamboree.

Arrival Information:

The Subcamp 3 Director attended a meeting at Ft. A.P. Hill last week and he indicated that the security was very tight. The Army is doing everything they can do to ensure our safety so you can expect some delay when entering the Jamboree. Anything you can do prior to and during your arrival to ensure an orderly transition through security will be helpful. Make sure everyone has a picture ID and your paper work is available for both you and your equipment vehicle.

For Sale:

We will have for sale, 4 sets of two-way radios. These radios are Motorola Talkabout, model T5720, with a 5-mile range. They are 22 channels FRS/GMRS, each with 38 "quiet" codes. They are weather resistant and have ni-cad re-chargeable batteries with a charger and belt clips. Used 10 days by the Commissioner staff. The radios retail for \$59.99 and we will sell them to you for a great deal of \$40.00 per set. Please let me know if you are interested.

Worth mentioning again (and again and again):

Drink plenty of water on your trip to the Jamboree and during the Jamboree.  
All Scouts and leaders should have summer weight sleeping bags.  
Provide large plastic bags to store the sleeping bags in during the day to keep them dry.  
Make sure each Scout checks every day for ticks and stay out of the wooded areas.  
Look forward to having FUN...

If you have any questions please let me know. I will be leaving for the Jamboree early on July 19<sup>th</sup> so will not be available.

"Meet you at the Hill"...
